

Canadian Society of Healthcare-Systems Pharmacy - Ontario Branch

Finance for Hospital Pharmacy Leaders Program

Program Description

This program is designed to strengthen the financial acumen pharmacy leaders need to navigate healthcare economics, budgeting, reimbursement systems, and practical decision-making. Participants will build confidence using financial information to support cost management, short- and long-term investment decisions, and sustainable patient care.

Participants will:

- Better understand the basics of financial statements;
- Have more confidence using financial information to make sound decisions;
- Understand the importance of the time value of money in longer-term decisions; and
- Understand the importance of sound management control systems.
