2021 Updates

Year 1 Standards

Standard	Year of update	Programs will be accredited against these updates	2018 Original Wording	New Wording (changes in bold)	Why was the change made?
2.1.2.2a	2021	On or after July 1 2022Tasks related to the duty (service) roster shall be assessed in a manner similar to the assessment of other academic requirements of the residency program, and the department shall not assign the resident to perform repetitive tasks solely to meet its service needs.Tasks related to the duty (service) roster shall be assessed in a manner similar to the assessment of other academic requirements of the residency program (e.g. as part of the formal longitudinal assessment), and the department shall not assign the resident to perform repetitive tasks solely to meet its service needs.	The standard currently states that If service shifts are a requirement of the residency program (or a condition of acceptance into the residency program) then these shifts should be assessed. For clarity, an assessment example was added.
2.2.3.7.d.iv	2021	On or after July 1 2022	A written final assessment shall be completed for each rotation.....	For each rotation, a written final self- assessment shall be completed by the resident and a written final assessment shall be completed by the preceptor .	The intent of the standard is that both the resident and preceptor each complete a written final assessment. The wording of the standard was amended to clarify this.
3.5.2	2021	On or after July 1 2022	The resident shall provide effective education to a variety of audiences (e.g. students, other pharmacy residents, healthcare professionals [including students of those professions], the public, and other stakeholders) and in a variety of instructional settings (e.g. seminars, lectures, case presentations).	The resident shall provide effective education to a variety of audiences (e.g. patients , students, other pharmacy residents, healthcare professionals [including students of those professions], the public, and other stakeholders) and in a variety of instructional settings (e.g. seminars, lectures, case presentations, patient interactions)."	Wording amended as a reminder that medication and practice-related education can occur in the presence of patients. "Patients" and "patient interactions" were added as examples of audiences and instructional settings, respectively.
3.5.3	2021	On or after July 1 2022	The resident shall demonstrate skill in the four roles used in practice-based teaching:	The resident shall demonstrate skill in the four roles used in practice-based teaching in a variety of settings which shall include patient-care settings:...	Residency training takes place in practice-based environments. At such, there should be opportunity for the resident to demonstrate at least one of the four roles in a practice-based setting in order to meet this standard. (i.e. the roles cannot all be demonstrated in only faculty-based courses or labs.)

Year 2 Standards
